

Box plot showing the distribution of cost for the 0.1% quantile. The x-axis is labeled 'cost' with values 4, 8, and 16. The y-axis is labeled '0.1'. The plot shows a single data point at cost 4, a box plot for cost 8, and a box plot for cost 16. The box plots are blue, and the whiskers are dashed blue lines. The median for cost 8 is approximately 6.5, and for cost 16 is approximately 11.5. There are outliers for cost 16 at approximately 18 and 20.
